# **Sixth Economic Census Report**

## **Chapter – I**

### **Introduction:**

Economic Census (EC) is the complete count of all establishments excluding crop production and plantation (i.e. units engaged in production and/or distribution of goods and services not for the purpose of sole consumption) located within the geographical boundaries of the State. Earlier, five Economic Censuses have been conducted during 1977, 1980, 1990, 1998 and 2005. The Sixth EC was conducted from 15<sup>th</sup> May to 15<sup>th</sup> June, 2013 in the State independently by the Directorate of Economics & Statistics Government of Tripura as a part of All India Programme under guidelines and methodology of the Economic Statistics Division, Central Statistics Office (CSO), Ministry of Statistics and Programmer Implementation (MOSPI), Government of India, New Delhi .

All economic activities – agricultural and non-agricultural, except those involved in crop production and plantation, defense and compulsory social scrutiny, related to production and/ or distribution of groups and/ or services were covered. The main agricultural activities covered under the Sixth Economic Census include livestock production, agricultural support activities, hunting, forestry, logging, fishing and aquaculture. Non-agricultural activities covered under Sixth Economic Census includes mining and quarrying, manufacturing, electricity, gas and water supply, sewerage, waste management, construction, wholesale and retail trade, transport and storage, accommodation and food service, information and communication, financial and insurance, real estate, professional, scientific and technical, administration and support services, education, human health and social work, arts, entertainment & recreation etc. These economic activities whether they are in household or institutional in private and public were covered without exception.

The efficient formulation, implementation and evaluation of any sectoral policies depends largely on reliable data at even below district level. Economy of any region or state can be broadly classified into two sectors, viz., i) agricultural and ii) non-agricultural. Though a fairly good system of agricultural statistics has been built-up over the decades like data on tenure and tenancy, land utilization, operational holdings, irrigation status especially through the Agriculture Census as well as Agriculture Input Survey. The data on livestock are fairly available through Livestock Census on a quinquennial basis. On the otherhand, there exists no such system of flow of reliable data from the un-organised part of non-agricultural sector of the economy of any region or state. The data in-respect of organised non-agricultural segments like registered factories, mines, railways, civil aviation, state transport undertakings, banks, insurance companies, educational institutions, hospitals etc. are being collected on regular basis.

Reliable and timely data base is the basic necessity for any sound and systematic policy making. Availability of reliable information, preferably at micro-level is the key for effective planning and development. While economic statistics in-respect of organised segments of the non-agricultural economy are being collected more or less regularly, it is not so in regard to its un-organised sector, even though due to its significant contribution towards Gross State Domestic Product (GSDP) and also in generation of employment opportunities. Infact, the un-organized sector plays an important role in capital formation and in generation of employment with relatively larger share in the State's GSDP.

Another objective of the Economic Census is to provide detailed information for follow-up surveys to be undertaken by the National Sample Survey Office (NSSO), Government of India on major sector of non-agricultural economy like trade, manufacturing, hotel & restaurant, transport, storage and warehousing as well as services etc.

### **History and Background of Economic Census:**

#### **(1) First Economic Census, 1977 (EC-1977) :**

The Bowley Robertson Committee commissioned a study in 1934 to explore the possibilities of conducting Economic Census in India. The main aim of the All India Economic Census is to bridge data gaps in the un-organised sector of non-agricultural economy covering unregistered manufacturing, trade, transport, services, etc.

In order to fill the data gaps in un-organised sector of non-agricultural economy covering un-registered manufacturing, trade, transport, services, etc. The Central Statistical Office (CSO), Government of India, launched the first ever Economic Census in the country during 1977 in-collaboration with the States Directorate of Economics & Statistics.

The coverage was restricted to only non-agricultural establishments employing at least one hired worker on a fairly regular basis. Data on items such as description of activity number of persons usually working, type of ownership etc. were collected.

#### **(2) Second Economic Census, 1980 (EC-1980) :**

The Second Economic Census was conducted in 1980 along with the house-listing operations of Population Census 1981. This was done with a view to economising resources, manpower, time and money. The scope and coverage was enlarged in economic activities both agricultural and non-agricultural whether employing any hired worker or not were covered, except those engaged in crop production and plantation.

The information on location of establishment, description of economic activity carried out, nature of operation, type of ownership, social group of owner, total number of workers usually engaged with its hired component and break-up of male and female workers were collected. The items, on which information were collected in Second Economic Census, were more or less the

same as those collected in the First Economic Census. However, based on experience gained in the First Economic Census certain items viz. years of operation, value of annual output/ turnover/ receipt, mixed activity or not, registered/ licensed/ recognized and act or authority, if registered were dropped.

Based on the frame thrown-up by EC-1980, the follow-up surveys were carried out, one in 1983-84 on hotels and restaurants, transport, storage and warehousing and services and second in 1984-85 on un-organized manufacturing and Third in 1985 on wholesale and retail trade.

### **(3) Third Economic Census, 1990 (EC-1990) :**

The Third Economic Census was also synchronised with the house listing operations of the Population Census-1991 on the same pattern as EC-1980. The coverage was similar to that of EC-1980. All States / UTs except Jammu & Kashmir, where Population Census-1991 was not undertaken, were covered.

Moreover, it was felt necessary to update the information collected in the Second Economic Census in 1980 so as to assess the changes in the structure of establishments, the growth in employment etc., in the un-organized sector over a period of ten years. The Third Economic Census sponsored by the Central Statistical Office, Government of India was carried out in-collaboration-with all the State Directorates of Economics and Statistics.

Based on the frame thrown up by EC-1990 four follow up surveys were carried out by the National Sample Survey Office, Government of India.

- i) Establishments survey covering mining and quarrying, storage and warehousing, 1992-93.
- ii) Establishment survey covering hotels and restaurants and transport, 1993-94.
- iii) NSS 51<sup>st</sup> round covering directory, non-directory and own account establishments in un-registered manufacturing, 1994-95.
- iv) Directory trade establishments survey in 1996-97, NSS 53<sup>rd</sup> round covered the residual part of the unorganised trade, 1997.

### **(4) Fourth Economic Census, 1998 (EC-1998) :**

With a view to meeting the demand of various user departments for the data on unorganised sectors of the economy and considering the nature of large number of small units which are subject to high rates of mobility and mortality, it was felt that the economic census must be brought back to quinquennial nature so that an up-to-date frame can be made available once in five years for conducting the follow up surveys. The Fourth Economic Census was planned during 1996 but due to various reasons the scheme could be launched only in 1998 in all States/ UTs.

The overall responsibility for organization and independent conduct of the Fourth Economic Census rested with the Directorate of Economics & Statistics, Government of Tripura in the State. Infact, the Directorate of Economics & Statistics conducted the Fourth Economic Census, independently, as a part of All India Programme.

Based on the frame thrown up by Fourth Economic Census, 1998, the following surveys were carried out by the National Sample Survey Office, Government of India.

- i) Special establishment survey on un-organised sector, 1998-99.
- ii) Survey on un-organised manufacturing, 2000-11 (NSS 56<sup>th</sup> Round).
- iii) Survey on un-organized establishments in service sector (excluding trade & finance), 2001-02 (NSS 57<sup>th</sup> Round).
- iv) Survey on un-organised manufacturing, 2005-06 (NSS 62<sup>nd</sup> Round).
- v) Survey on un-organised establishments in service sector excluding trade, 2006-07 (NSS 63<sup>rd</sup> Round).

**(5) Fifth Economic Census, 2005 (EC-2005) :**

To fill the data gaps of un-organized sector of the economy, the Fifth Economic Census was also conducted independently by the Directorate of Economics & Statistics, Government of Tripura in 2005 like previous Fourth Economic Census, 1998 as a part of All India Programme.

The main objective of Fifth Economic Census-2005 was to meet the demand of various user departments for the data on un-organized sectors of the economy and also to update the frame for National Sample Survey (NSS).

Based on the frame thrown up by Fifth Economic Census, the following surveys were also carried out by the National Sample Survey Office, Government of India.

- i) NSS 67<sup>th</sup> Round during 2010-11 on un-incorporated non-agricultural enterprises excluding construction.
- ii) NSS 73<sup>rd</sup> round during 2015-16 with coverage similar to NSS 67<sup>th</sup> Round.

**(6) Sixth Economic Census, 2013 (EC-2013) :**

The Sixth Economic Census, 2013 also provides data on number of establishments and number of persons employed there-in, activity wise, of all the sectors in the State excluding crop production & plantation, public administration, defense and compulsory social security. The up-to-date information would also provide data for comprehensive analysis of the structure of State's economy. It also provides time series data for various analysis and trend.

**Objectives:**

- The Sixth Economic Census which mainly gives activity-wise and area-wise head count of enterprises, employed and other main characteristics in numerical terms and also measure the impact of the government economic policies.
- To provide detail information on operational and economic variables, activity wise of all the establishments of the State.
- To generate information on number of establishments, employing 8 or more workers and their area wise operation in the State.
- To provide information on number of handloom and handicraft establishments and employment there-in in the State.
- It also provides data for sample frame for follow-up surveys for various economic estimates like Gross State Domestic Product (GSDP), per capita income etc. of the State.

**Geographical Coverage:**

The Sixth Economic Census, 2013 was conducted both in rural and urban areas of Tripura without exception. Enumeration Blocks (EBs) of Population Census-2011 were used as primary geographical units for data collection in the un-divided four districts frame. Census village refers to those areas classified and covered as villages during Population Census-2011 conducted by the Registrar General of India, Ministry of Home Affairs, Government of India, New Delhi and 7,284 Enumeration Blocks (EBs) of the State were enumerated during 15<sup>th</sup> May to 15<sup>th</sup> June, 2013.

**Scope and Coverage:**

The Sixth Economic Census was conducted both in rural and urban areas as per the similar pattern followed for Population Census-2011 frame. All economic activities both agricultural and non- agricultural, except those involved in crop production and plantation, public administration, defence and compulsory social security; related to production and or distribution of goods and/or services other than for the sole purpose of own consumption were covered.

The Sixth Economic Census was conducted under the Collection of Statistics Act, 2008 in the State.

However, as were done in earlier Economic Censuses, the following activities were kept out of the purview of Sixth Economic Census, 2013.

- i) Establishments of shelter-less and nomadic population, which keep moving place to place and also came either without shelter or with makeshift shelter.
- ii) Establishments engaged in some illegal activities like smuggling, gambling, beggary, prostitution etc.

- iii) Domestic servants, whether they work in one household or in a number of households, drivers etc. who undertake jobs for others on wages.
- iv) All wage-paid employees of casual nature.
- v) Household members engaged in household chores.
- vi) Persons doing different types of jobs depending on the availability of work, e.g., loading, un-loading helping a mason or a carpenter, doing earthwork for a contractor.
- vii) Household members working for other households and earning some money which is insignificant.
- viii) Households in which none of the members is engaged in any gainful activity i.e., households depending on remittance, rent, interest etc.

### **Conferences:**

- All Indian Conference of State secretaries in-charge of Planning and Directorate of Economics & Statistics to discuss various operational issues relating to implementation of the scheme was organised by the Central Statistics Office (ESD), Government of India, on 20<sup>th</sup> December, 2011 at New Delhi.
- The State level meeting was also held under the Chairmanship of the Chief Secretary, Tripura on 8<sup>th</sup> January, 2013 at Agartala with all line and user Departments for finalising operational modalities in the State.
- The Directorate of Economics & Statistics, Government Tripura has been organized a North-Eastern Regional Training Workshop during 08<sup>th</sup> to 9<sup>th</sup> April, 2013 at Pragna Bhawan, Agartala for all eight North-Eastern States.

### **Period of field operations:**

The field work of Sixth Economic Census was conducted during 15<sup>th</sup> May to 15<sup>th</sup> June 2013 both in rural and urban areas covering all districts of the State.

### **Schedules Covered:**

Three schedules mainly: i) 6A: House and Establishment listing schedule, ii) 6B: Establishment Abstract and iii) 6C: Directorate of Establishment schedule were used and canvassed in the Sixth Economic Census.

The field work was carried by the Assistant Teachers as Enumerators and Senior Teachers and other State Government Officials as Supervisors on honorarium basis.

The Sub-Divisional Magistrates were engaged as Charge Officers for both rural and urban areas. The Block Development Officers were also engaged as Additional Charge Officer for effective for smooth conducting the field operations. The District Magistrate and Collectors were remaining overall incharge for smooth field operations in the respective districts.

2. The ultimate area unit of enumeration was Enumeration Block (EB) of Population Census - 2011. An EB broadly cover about 120 households or a population of nearly 600 or so. EB means a specific area that was allotted to an enumerator for the purpose of carrying out of Population Census-2011.

In order to ensure complete coverage, it was necessary to locate and identify each and every house in the EB. Therefore, it was essential for enumerator to go round the EB and become familiar with its boundaries, land marks and location of houses with the help of Layout Map (LM) and Abridged House list (AHL) of Population Census 2011.

Based on the frame thrown-up by Sixth Economic Census, the following follow up Surveys have so far been undertaken or planner by the National Sample Survey Officer, Government of India.

- i) NSS 73<sup>rd</sup> Round during 2015-16 on un-incorporated non-agricultural enterprises excluding construction.
- ii) NSS 74<sup>th</sup> round during 2016-17 on Establishment Focused Survey on service sector.

The Abridged House-List (AHL) of Population Census-2011 provided for the identification particulars i.e., names and codes of States, District, Tehsil/PS/ Block, Town/Village, Ward and Enumeration Block. It also provides house-list particulars such as EB number, census house number, purpose for which census house is used, household number, name of the head of household, population of EB, number of residential houses and total number of households. Both these documents were helped to complete coverage of the EBs.

### **Post Enumeration Check**

Post Enumeration Check (PEC) was conducted in all districts immediately after completion of the field work. Two villages and two urban blocks were selected at random in each district. The field operations of the PEC was done by the Officials of the Directorate of Economics & Statistics, Tripura.

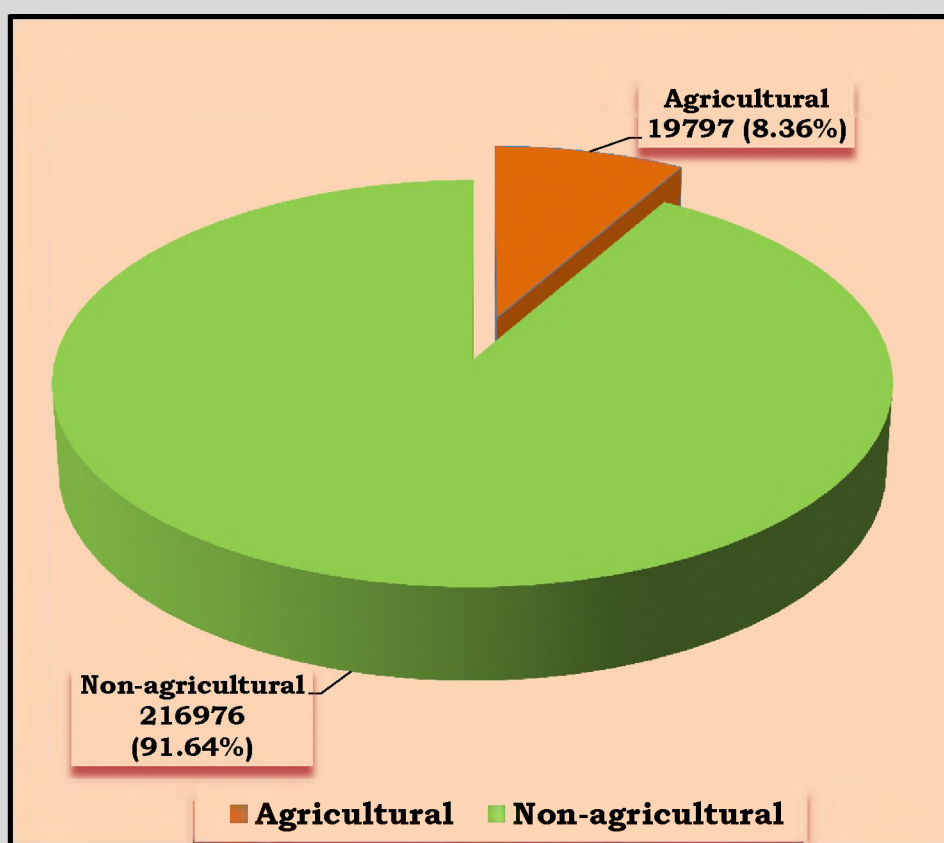

### **Release of Provisional Results**

In order to meet the immediate needs of various users, the quick tabulation of Sixth Economic Census data was processed and tabulated and finalized on 13<sup>th</sup> May 2014 and send to Central Statistics Office, Government of India, New Delhi for inclusion in All India provisional Report.

## Data Processing

The Schedule 6A of Sixth Economic Census were scanned and digitised at SSC, Faridabad, NCR under ICR Technology. The data entry of Schedules 6B and 6C were processed in the Directorate of Economics & Statistics, Tripura. After running the edit programme, the error list files were generated which were further verified and corrected for reliable estimates.

## Chapter – II

### **Concepts and Definitions:**

#### ***Establishments***

An establishment is a unit or an economic entity situated in a single location in which predominantly one kind of economic activity is carried out so that at least a part of the goods and /or services produced by the unit is sold. For example, it can be an office providing services to the consumers/ clients on fee or payment basis, a shop selling the provisions of day to day consumption / use, a factory producing or manufacturing a goods item, or a house themselves or by hiring person(s) or with a combination of the two. The activity may be carried out within fixed premises/permanent structure or without having any permanent structure.

#### ***Agricultural Establishments***

An agricultural establishment for the purpose of this Economic Census is one engaged in production of agriculture good (other than crop production & plantation by the farmers or a group of farmers or any agency), agricultural services, hunting, trapping & game propagation, livestock production, forestry and logging as well as fishing and aquaculture, where at least some part of the production or services is sold out. Establishments engaged in activities pertaining to crop production and plantation though the agriculture sector were not covered. Thus primarily cultivators themselves were outside the purview of the Economic Census. However, services incidental to crop production or plantation provided/ undertaken by any one individual or a firm or a company by charging fee or rent/ compensation e.g. machinery & equipment for tilling/cultivation, preparation of field or sowing harvesting/ chaffing, transportation of agriculture goods/ produce, charging for irrigation facilities etc. as their principal activity were included and the establishments engaged in such activities were enumerated.

It may be noted that while the growing of tea, coffee, rubber, tobacco, etc. were not classified as agricultural establishments for the purpose of this census, however, establishments engaged in processing of tea, coffee, tobacco etc. were covered.

#### ***Agricultural Broad Activates:***

- 1) Agricultural activities (except crop production & plantation)
- 2) Live Stock
- 3) Forestry & Logging
- 4) Fishing & Aqua Culture

#### ***Non-agricultural Establishments:***

Establishments engaged in activities other than agricultural activities as defined above are termed as non-agricultural establishments.

**Non-Agricultural Broad Activities:**

- 1) Mining & quarrying,
- 2) Manufacturing,
- 3) Electricity, gas, steam & air conditioning,
- 4) Water supply and sewerage and waste management,
- 5) Construction,
- 6) Sale, maintenance and repair of motor vehicles and motor cycles,
- 7) Wholesale trade,
- 8) Retail trade,
- 9) Transport and storage,
- 10) Accommodation and food service activities,
- 11) Information & communication,
- 12) Financial & insurance activities,
- 13) Real estate activities,
- 14) Professional, scientific & technical activities,
- 15) Administrative and support service activities,
- 16) Education,
- 17) Human health and social work activities,
- 18) Arts entertainment, sports & amusement and recreation,
- 19) Other Services activities.

**Following types of establishments were kept out of census coverage:**

- Agriculture: Establishments growing perennial and non-perennial crops including plantation crops.
- Government Offices: Establishments engaged in public administration covering all Ministries, Departments at Central and State/ UT Government Level and also Local Self Government. This includes Courts, Tax Office, Offices of Ministry of Defence (Air Force, Navy and Army), Police, ESIC, EPFO etc. However, government schools, institutions, colleges, hospitals, hostels/ flats, guest houses, government banks, all public sector undertakings including that of Ministry of Defence equipment production or sensitive's material corporations, undertakings etc. were covered.
- Establishments involved in gambling and betting activities declared illegal by the Government.
- International organizations such as United Nations and its agencies, Foreign Embassies/ Consulates etc.

**Household:**

A household is a group of persons usually living together and taking their meals from a common kitchen. It includes temporary stay away (those whose total period of absence from household is expected to be less than six months) but excludes temporary visitors and guests (with expected total stay of less than six months). There may be a household of persons related by blood or a household of unrelated persons or having a mix of both but satisfying above condition of a household. Example of households having unrelated persons/members are boarding houses, messes, hotels, rescue houses, jails, ashrams etc. These are called 'Institutional Households'.

***Census House:***

A census house is a building or a part of building having a separate main entrance from the road or common courtyard or staircase, etc., used, or recognised as a separate unit. It may be occupied or vacant. It may be used for residential, commercial or for both purposes.

***Premises:***

Premise is census house or part of a census house occupied by a unit/household. If the activity of the enterprise carried out by a unit/household extends beyond the boundaries of a single house to a group of contiguous houses and in rare cases a group of houses in close proximity, the entire group of houses is regarded as single premise.

***Worker:***

All persons (including children under 15 years of age) working in an establishment either as owners, members of the household working as a co-owner or partner or helping the owner in running the establishment, whether hired or not, besides regular and salaried employees, casual/ daily wage labourers are considered as workers for that establishment. A worker may serve the establishment in any capacity either as primary worker or as supervisor. Sales persons appointed by an establishment for selling/marketing its produce or services of apprentices, supporting workers, paid or unpaid are also treated as workers. The owner running the establishment would also be considered as a worker and counted for the purpose.

***Concepts of various types of ownership:******Building:***

A building is generally a single structure available on the ground. Usual structure will have four walls and a roof. But in some areas, the natural construction of houses is such that there may not be any wall. For example, a conical roof almost touches the ground and an entrance is also provided and there will not be any wall as such. Such structures should be treated as buildings.

***Unit:***

A unit located in a house is an entity engaged in some gainful economic activities involving production and or distribution of goods and or services such as a workshop; manufacturing unit, an office, a firm, a school, a hospital, places of worship etc.

### ***Establishment:***

The establishment is a unit situated in a single location in which predominantly one kind of economic activity is carried out such that at least a part of the goods and/or services produced by the unit goes for sale (i.e. entire produce is not for sole consumption).

### ***Premise:***

Premise is a census house or part of a census house occupied by a unit/household. If the activity of the establishment is carried out by a unit/household extends beyond the boundaries of a single house to a group of contiguous houses and in rare case, a group of houses in close proximity, the entire group of houses is regarded as a single premise.

### ***Agricultural Establishment:***

An agricultural establishment for the purpose of this Census would be one, engaged in production of agriculture goods (other than crop production & plantation by the farmers or a group of farmers or any agency), agricultural services, hunting, trapping & game propagation, where at least some part of the production or services is sold out. **Establishments engaged in activities pertaining to crop production and plantations though in the agriculture sector will not be covered. Thus primarily cultivators themselves would be excluded from the census.** However, services incidental to crop production or plantation provided / undertaken by any one individual or a firm or a company by charging fee or rent/compensation e.g. machinery & equipment for tilling/cultivation, preparation of field or sowing harvesting/chaffing, transporting of agriculture goods/produce charging for irrigation facilities etc. as their principal activity would be included and the establishments engaged in such activities would be enumerated.

### ***Non-Agricultural Establishment:***

Establishments engaged in activities **other than** agricultural activities (like crop production & plantation, growing of tea, coffee, rubber, tobacco etc.) will be termed as non-agricultural establishments; i.e. activities which do not fall in the broad activity codes 01 to 04 and are covered under code 05 to 23 in column 12 of Schedule 6A.

### ***Handloom/Handicraft Activity:***

Handicraft described as a craft or occupation requiring skilled use of hands. Handicrafts are items made by hand, often using simple tools. These items can be functional, artistic and/or traditional in nature. The need to enumerate crafts in the Sixth Economic Census is to understand and reflect the huge contribution artisan communities make to India's economy.

Thus, to summarise, skill of worker and use of hand are two prerequisites for handicraft. It must be predominantly made by hand. It does not matter if some machinery is also used in the process.

Handicrafts range from the very simple (diyas, kulhars) to the very complex (stone temples, enamel jewellery). Certain products like baskets, brooms, pots, diyas, mats and chiks could range from very simple to quite complex, but are traditionally considered as handicrafts even in their simplest forms.

At the same time, certain handmade articles are not usually categorized as handicrafts. Activities involving human labour without skill are usually not included.

***Nature of Operation:***

If the entrepreneurial activity is carried on or likely to be carried on throughout the year more or less regularly, it is treated as **perennial** activity. If the activity of the establishment is confined to a particular season i.e. fixed months of a year, the same is called the **seasonal** activity. The economic activity of the establishment which is neither perennial nor seasonal is termed as **casual**.

***Worker:***

All persons (including children under 15 years of age) working in an establishments either as owners, members of the household working as co-owner or partner or helping the owner in running the establishment, whether hired or not, besides regular and salaried employees, casual/daily wage labourers would be considered as workers for that establishment.

***Own account workers:***

They are the self-employed who operate their establishments on their own account or with one or few partners and who during the reference period by and large, run their establishments without hiring any labour. They may however, have unpaid helpers, mostly family members, to assist them in their activity of the establishments.

***Employers:***

The self-employed persons who work on their own account with one or a few partners and by and large run their establishments by hiring labour are the employers.

***National Industrial Classification (NIC):***

The description of activity of the establishment in one of the important items of information to be carefully recorded. The description should be adequately elaborated to enable proper classification and coding of the entrepreneurial activity during scrutiny and coding stages. Based on the description of the activity / activities, the code(s) will be given in 3-digit level as per NIC – 2008 book supplied.

***Type of ownership:***

The type of ownership of an establishments is classified as (a) Government including PUSs, (b) Private Proprietary, (c) Private Partnership, (d) Private Corporate Establishment (Companies), (e) Private Self-Help Group, (f) Private Co-operative Societies and (g) Private Non Profit Institution.

### ***Government/Public Sector Undertaking:***

Establishment which are wholly owned/ run/ managed by Central or State Governments, quasi-government institutions, local government bodies like Zilla/ Gram Panchayat, Zilla Parisad, City Corporation, Municipal authorities, autonomous bodies like Central/ State/ deemed to be Universities, Education boards, and government owned institutions like schools, libraries etc. set up by the government, with 100% funding are usually called government establishments. Those run with more than 50% share of the government and remaining share coming from other sources will be treated as government/ public sector undertaking.

All establishments which are not treated as Government/ Public Sector establishment will be treated a private establishments and classified into one of the following:

#### ***Proprietary establishment:***

When an individual is the sole owner of an establishment it is a proprietary establishment.

#### ***Partnership establishment:***

Partnership is defined a 'relationship between two or more persons who have agreed to share the profits of a business carried out by all or any one of them acting for all'. There may be two or more owners in a firm, belonging to the same or different household, on a partnership basis, with or without formal registration. All partnership establishments registered under Partnership Act, 1932 were also covered in the Economic Census.

#### ***Private corporate establishment (companies):***

Those Private Establishments (companies) registered under the Companies Act, 1956 and carrying out economic activities fall under the category of 'Private Corporate Establishments'. It includes private limited and public limited companies, as well as establishments registered under Limited Liability Partnership Act, 2008.

#### ***Non-Profit Institution:***

Non-Profit Institution are legal or social entities created for the purpose of producing goods and services whose status does not permit them to be a source of income/ profit or other financial gain for the units that establish, control or finance them.

### ***Cooperative Societies:***

A cooperative society is one that is formed through the co-operation of a number of persons, recognized as members of the society, to benefit themselves. In the process, the funds are raised by members' contribution/ investments and the profits generated out of the society's activities are shared by the members. Such societies are usually registered under Co-operative Societies Act, 1912.

### ***Self-Help Groups (SHGs):***

A self-help group (SHG) is a financial intermediary usually composed of 10-20 local persons. Members make small regular savings/ contributions over a few months until there is enough capital in the group to begin lending. Funds are then lent back to the members or to others in the village for any purpose. Many SHGs are 'linked' to banks for the delivery of microcredit. SHG need not be registered.

### ***Nature of operation:***

If the entrepreneurial activity is carried on or likely to be carried on (for newly started establishments) throughout the year more or less regularly, it is treated a perennial activity.

If the activity of the establishments is confined to a particular season i.e. fixed months of a year, the same is called the seasonal activity. The economic activity of the establishment which is neither perennial nor seasonal is termed a casual. In case of casual entrepreneurial activity, it is carried out occasionally depending upon the availability of time and resources.

### ***Number of persons employed on the last working day in relation to day of visit:***

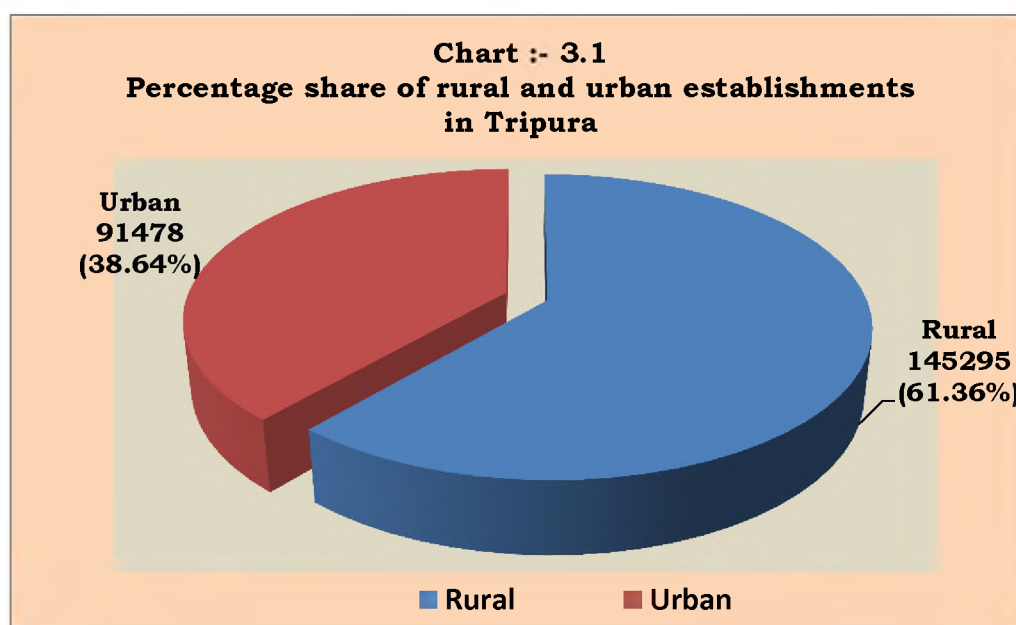

The number of persons found working comprising, hired, non-hired (including family members; unpaid apprentice and owner himself), on the last working day in the establishment with gender breakup: male and female, and the total had been recorded. Eunuchs & Hermaphrodite workers are added under male. Regular wage/ salaried workers, who are temporarily absent on the last working day were also counted. In case of working owner/other family workers (i.e. Self-employed persons), those 'normally' work in the establishment but could not work on the last working day, were also included.

## Chapter – IV

### Agricultural Establishments

For the purpose of Economic Census, an agricultural establishment is defined as one engaged in plant propagation, animal production, agricultural services, hunting and trapping, forestry, logging, fishing and aquaculture (corresponding to Groups 013, 014, 016, 017, 021, 022, 031 & 032 of NIC – 2008). Establishments engaged in activities pertaining to crop production and plantations (Group 011 of NIC – 2008) are excluded from the coverage of Economic Census, 2013.

Establishments – According to Sixth Economic Census, there were 19,797 agricultural establishments (excluding crop production and plantation) in Tripura. They accounted for 8.36% of the total establishments. It was seen that out of 19,797 agricultural establishments, 19,005 establishments, constituting 96% of total agricultural establishments, were own account establishments (OAE). The rest 792(4%) were agricultural establishments with hired workers.

About 17168 (86.72%) of the agricultural establishments were located in rural areas out of which (96.78%) of them were own account establishments and rest were establishments with hired workers. In urban areas too own account establishments shared the major chunk 90.91% of the agricultural establishment.

Employment – Agricultural establishments (excluding crop production and plantation) engaged 27,865 persons, which constituted 6.90% of the total employment. Of these, 25,516 (91.57%) were engaged in our account establishments and remaining 2,349 (8.43%) establishment with hired workers.

About 85.06% of the total agricultural employments numbering 23,701 were working in rural areas. Out of these 93.45% persons worked in own account establishments and rest in establishments with hired worker. About 6.55% of the persons working in rural agricultural establishment were hired workers.

In urban areas; proportion of employment in own account establishments and in establishments with hired workers were marginally different as we observed in rural areas. About 80.86% of the total urban agricultural employments were in own account establishments and rest 19.14% in establishments with hired worker.

Total female employment constituted 28.34% of total employment in agricultural establishments (excluding crop production and plantation).

A more higher proportion of 86.84% of the female workers in agricultural establishment were found working in rural areas. In urban areas; proportion of female workers in agricultural establishments was 13.16%.

The number of agricultural establishments by type and employment there-in are given in the Table 3.1.

The following Table – 4.1 shows the distribution of agricultural establishments and employment therein.

## Chapter – VI

### **Handloom/ Handicraft Establishments:**

#### **Background:**

Due to paucity of data on handloom & handicraft sector, it was decided to capture the information regarding handloom and handicraft manufacturing establishments during Sixth Economic Census. In the main schedule on item regarding the major activity of the establishment was included i.e. “Is it a handloom/ handicraft activity?” The enquiry was restricted to manufacturing activity only. The decision for inclusion of the item was taken at national level after due consultation with erstwhile Planning Commission, Development Commissioner (Handicraft), Development Commissioner (Handloom), Craft Council of India and other stake holders. The purpose of including this item in the Sixth Economic Census was to assess the number of handloom and handicraft establishments in the State as well as in the country and persons employed therein and also for undertaking further surveys for assessing the contribution of this sector.

#### **Definition of handloom & handicraft activity:**

Handloom/Handicraft describes a craft or occupation requiring skilled use of hands. Handicrafts are items made by hand, often using simple tools. These items can be functional, artistic and/ or traditional in nature. The need to enumerate crafts in the Sixth Economic Census is to understand and reflect the huge contribution artisan communities make to India’s economy. Thus, to summarise, skill of worker and use of hand are two prerequisites for handicraft. It must be predominantly made by hand. It does not matter if some machinery is also used in the process. Handicrafts range from the very simple (dijas, kulhars) to the very complex (stone temples, enamel jewellery) work. Certain products like baskets, brooms, pots, dijas, mats and chiks could range from very simple to quite complex, but are traditionally considered as handicrafts even in their simplest forms. As the same time, certain handmade articles are not usually categorized as handicrafts. Activities involving human labour without skill are usually not included.

Handicraft/Handloom establishments are those which involved predominant role of human skills and performed by hands using traditional knowledge and simple tools.

Two broad categories for exclusion comprised of the following activities:

- All food items like papads, pickles, etc, which may be handmade.
- Items like bricks, bidis, agarbattis, mach sticks, firecrackers etc. which are made by hand but not distinguished by distinctive skills.

For the purpose of Sixth Economic Census, the work handicraft includes handlooms, so all manner of hand weaving activities was considered under the same.

### **Establishment:**

During Sixth Economic Census, information was collected from each of the such manufacturing unit where hand as well as skill is being used in the manufacturing activity. In the Census, large number of activities, involving hands but not artistry/skill has been excluded despite generating employment and turn over, with a purpose to capture pure handloom & handicraft activities.

It is found that about 10,925 handloom and handicraft establishments were in Tripura, out of which 60.45% were located in rural areas and remaining 39.55% were located in urban areas.

Further, about 8,680 (79.50%) establishments were run without hired workers against All India similar proportion of 78.90%. Moreover, 94.98% of these establishments were perennial, 4.19% were seasonal and rests 0.82% were casual in nature against All India similar establishments of 88.7%, 9.0% and 2.3%.

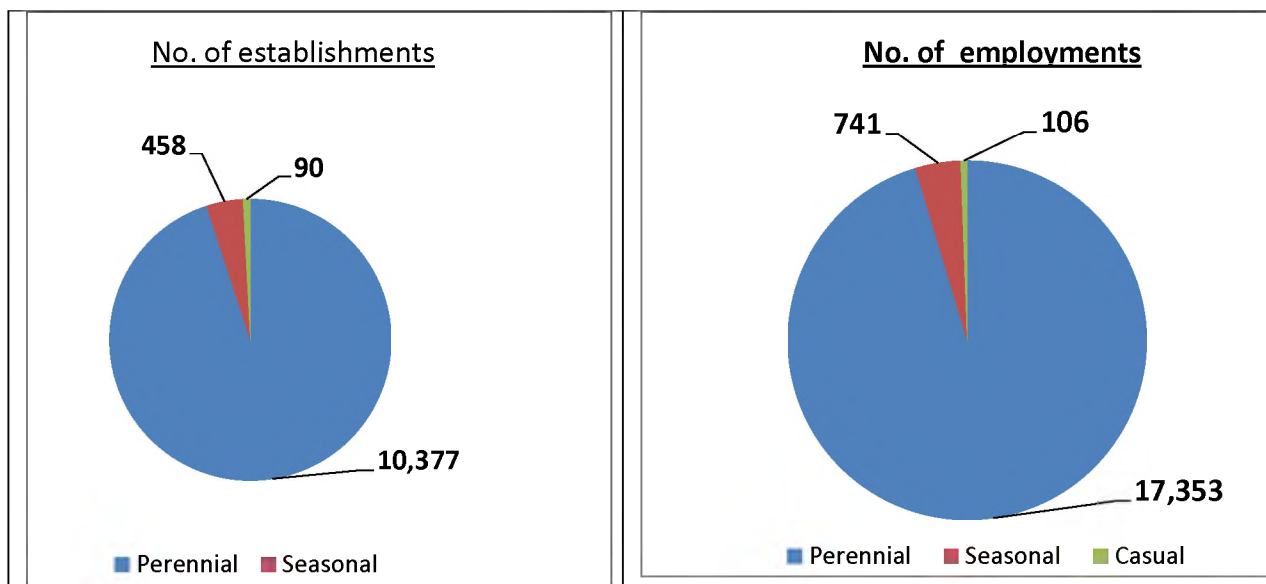

### **Employment:**

It may be seen from the following table that during the period of Sixth Economic Census, about 18,200 persons were employed in handloom and handicraft sector in the State. In this sector, the percentage of persons employed in establishments in the State without hired workers was 60.79% against All India similar proportion of 58.11%.

The following table depicts the number of handloom and handicraft establishments by nature of operations in the State.

### Handloom and handicrafts establishments & employments by source of finance

## **Chapter – VII**

### **Women Entrepreneurs**

#### **Introduction**

Women's equal access and control over economic and financial resources is critical for the achievement of gender equality and empowerment of women as well as equitable and sustainable economic growth and development.

In Tripura female literacy rate was 82.7% as per Population Census 2011. Further, work force participation rate for female was 23.57 as per Population Census 2011. Women have started playing important roles in decision making at all levels.

Although data on women labour force, literacy, health aspects etc., are being generated regularly through regular Censuses and Surveys but data on women entrepreneurialship at national level is rather scanty. Therefore, during Sixth Economic Census, question related to women entrepreneurship in proprietary ownership were added. It covers sex, relation, social group, economic activity, number of workers employed (hired and not hired) and source of finance.

It has been observed that 14,506 out of the total 2,36,773 establishments were run by women entrepreneurs in Tripura which is around 6.13% of the total number of establishments. Total workers engaged in women owned & run establishments were 19,880 persons, which is 4.92% of the total number of workers engaged in Tripura under different economic activities.

#### **Establishments**

The total number of establishments owned by women entrepreneurs was 14,506 out of which 9,316 constituting about 64.22% of the total establishments were located in rural areas and the remaining 5,190 (35.78%) were located in urban areas. Further, about 13,168 establishments i.e., 90.78% operated without hired workers and 1,338 (9.22%) operated with hired workers. The percentage of establishments without hired workers in rural areas was 94.34% whereas, in urban areas, it was 84.37%. The number of women establishments involved in agricultural activities was 2,552 constituting 17.59% of the total number of establishments owned by women.

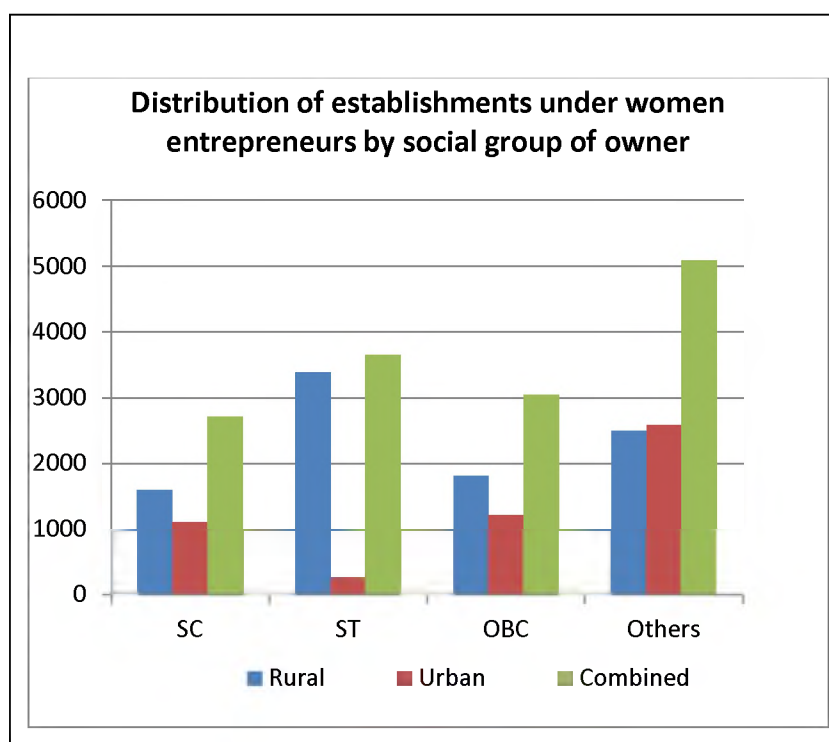

#### **Employment**

The total number of persons employed in establishments owned by women was 19,880. Further 11,988 (60.30%) persons were employed in establishments located in rural areas and 7,892 (39.70%) persons were employed in establishments located in urban areas. 14,951 (75.21%) persons were working in establishments without hired workers whereas 4,929 (24.79%) persons were working in establishments with hired workers.

The following Table depicts the number of establishments and employments under Women Entrepreneurs by sector and social group of the owner in the State.
